(a)
$D = \partial \ln(R_L/a)/\partial \ln q_E$
(b)
$R_0 = 0.81489$
R_L/a
$C\, q_E^{1/3}$
reference (this work)
Eq. (fit), 6 parameters
(c)
relative error of D (%)
(d)
classical fit range
relative error (%)
